Terms & Conditions

Copyright

The content of this website is © Grammelot Srl unless attributed to a third party.

All third party content has been included with permission from known copyright holders. Copyright holders should contact us immediately if they feel we are using copyrighted material inappropriately. We will take steps to rectify the situation.

In accessing Grammelot Srl's web pages including those of the Grammelot Srl portal, you agree that you may only download the content for your own personal, non-commercial use.

You are not permitted to copy, broadcast, download, store (in any medium), transmit, show or play in public, adapt or change in any way the content of these Grammelot Srl web pages for any other purpose whatsoever without the prior written permission of Grammelot Srl.

Links Disclaimer

This website contains links to external websites not controlled by Grammelot Srl.

While every care is taken to ensure the websites we link to are accurate and dependable, we cannot guarantee this. Inclusion of such links to external websites is for your benefit, but it does not follow that these sites' content has been approved by us.

Website IPR and Disclaimer

Every care has been taken to ensure the information contained on our website is accurate at the time of publication. However, as we regularly review our provision, information may be subject to change.

Information & Data Protection

For more information or contact us on gdpr@grammelot.eu.

Accessibility Features

Our website strives to uphold the principles and best practice of the WCAG 2.0 AAA guidelines. Our central objective is users finding our site accessible and usable in practice. As with all sites we create, attention to the accessibility of the code and extensive end user testing ensures this is the case.

Links are written to make sense out of context - that is, reading the phrase of the link by itself is enough to understand where that link might take you.

Our site's code

The site has been built to comply with standards HTML5 and CSS3. At every stage the code has been checked for accessibility using a range of automated and (more significantly) manual checks.

Feedback

We welcome feedback on the accessibility and usability of our website. If you have had any problems or any issues while using our site, we would like to hear about it!
